

Preparedness for Implementation of Sustainable Development Goals

Report No.PER/2017/2018/SDG/05

National Audit Office
Performance Audit Division

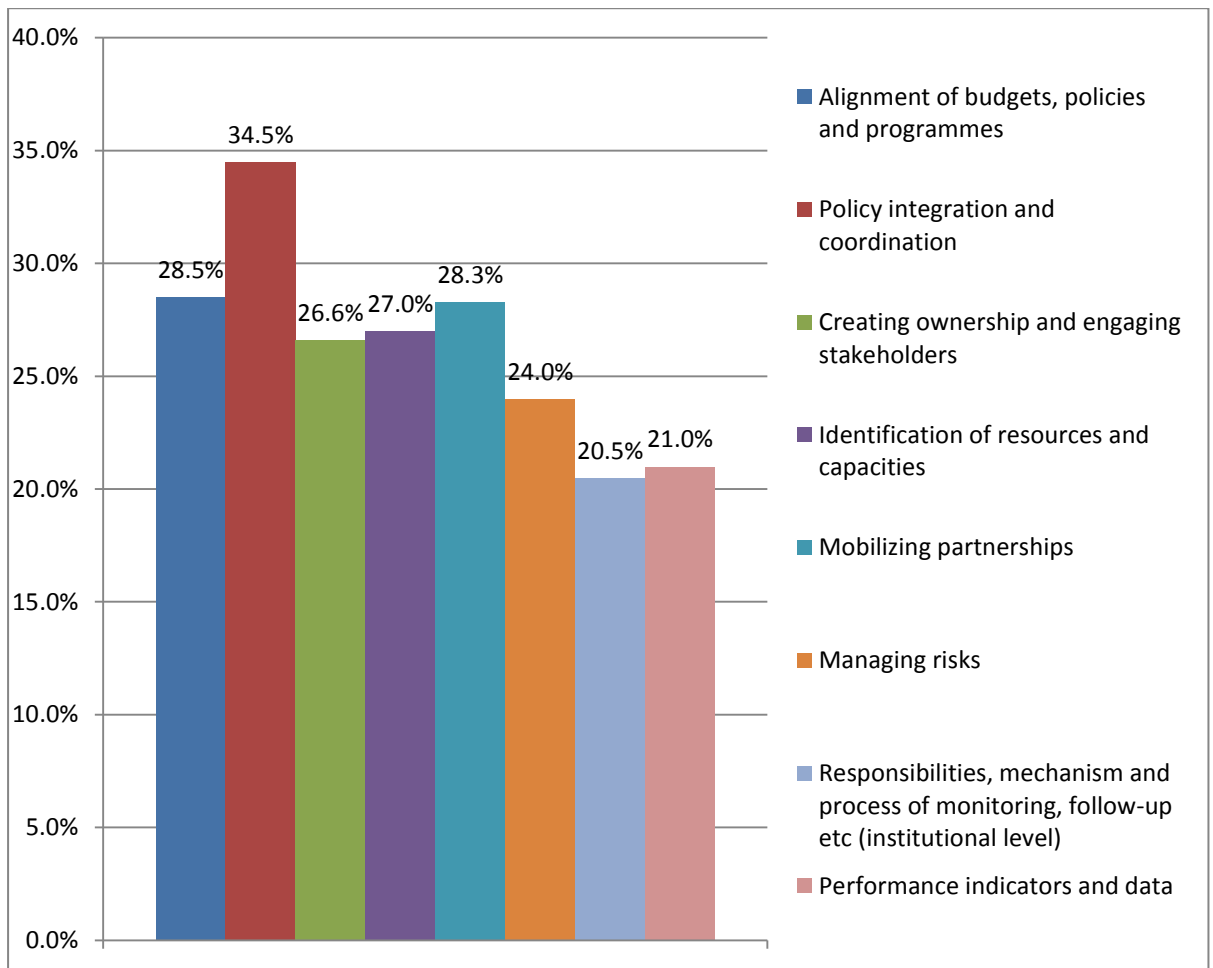

National preparedness for SDG implementation

The summary of main observations on National Preparedness for the Implementation of Sustainable Development Goals (SDGs) is as follows.

1. The Rapid Integrated Assessment (RIA) is a first step in the process of aligning the country's national development plan or public Investment programme with SDGs and RIA reveals an uneven alignment between the policy initiatives in the 2017 -2020 Public Investment Programme and the SDG target areas for the economy as (84%) people (80%) planet (58%) peace (42%) and partnership (38%).
2. After deducting debt repayments, the Government has allocated Rs. 440,787 million or 18 percent out of the total national budget of Rs. 2,997,845 million on major projects which identified major targets of relevant SDGs in the year 2018.
3. Sri Lanka had not developed a proper communication strategy on monitoring, follow up, review and reporting on progress towards the implementation of the 2030 agenda.

Audit at a glance

The information gathered from the selected participatory Government institutions have been quantified as follows. Accordingly, Sri Lanka has to pay more attention on almost all of the areas mentioned in the graph for successful implementation of Sustainable Development Goals.

Executive Summary

The 2030 Agenda is universal, integrated and transformative vision for a better world. The sustainable development that is being discussed under the Agenda is, development that meet the needs of the present without compromising the ability of future generations to meet their own needs. Government of Sri Lanka has also committed to implement this Agenda by taking several steps. Establishment of a Parliament Select Committee to facilitate the implementation of SDGs for the purpose of coordinating the activities of the Parliament with the respective Ministries and providing expert advice, establishment of the Ministry of Sustainable Development and Wildlife in 2015 as the line ministry responsible for Sustainable Development and enactment of Sustainable Development Act, No.19 of 2017 are the major events that taken place for the implementation of SDGs in Sri Lanka. The President of Sri Lanka has appointed a Presidential Expert Committee on Sustainable Development and gave the mandate to prepare the vision document of 2030 which describes the vision and the practical pathway to reach a sustainable future by 2030.

As the Supreme Audit Institution, National Audit Office of Sri Lanka started the function of audit on SDGs with the expectation of strengthening the accountability, transparency and integrity of Government and public sector institutions which are involved in implementation of SDGs and through which to increase the efficiency and effectiveness of those institutions and thereby to uplift the lives of the citizens. The Government of Sri Lanka consist of three layers of administration as National Government, Provincial Government and Local Government. Audit examination was focus on the activities performed by the selected Government Institutions belonging to the above 3 administration levels for the period of January 2016 to the August 2018.

The audit revealed that the country's long term development plan or vision 2025 and the Public Investment Programme (PIP) (2017-2020) has integrated the economic and social dimensions of sustainable development to a certain extent than that of the environmental dimension. The observations made on the alignment of Public Investment Programme with SDGs revealed that only 64 targets had been fully aligned and 45 targets had been partially aligned with PIP, and it is a necessity for the PIPs policy initiatives and Public Finance plans to be aligned with the Sustainable Development

targets for successful implementation of the 2030 Agenda. In the National Budget of 2018, Rs. 440,787 million or 18 per cent out of the total Budget has been allocated on SDGs and aligned with 82 targets of major projects. However, due to the lack of clarity of circulars of National Budget, most of the Government Institutions were unable to produce productive proposals on SDGs. Further, the non- formulation of National policy and strategy over Sustainable Development, absence of a mechanism to get the active participation of Private sector and Civil Society in the implementation of SDGs, lack of raising public awareness about SDGs, limiting of mapping exercise by MSDW&RD depicting the implementation responsibilities only to 425 Government Institutions, absence of a proper communication methodology with stakeholders, lack of disaggregation level of data, lack of identification of milestones, lack of knowledge about preparation of indicators at the institutional level and non-completion of activities relating to establishment of a national monitoring review, reporting follow-up mechanism for SDGs as major observations relating to the audit.

Audit recommendations include, to expedite the process of formulation of National Policy and Strategy on sustainable development, to review and finalize the draft handbook which maps the 425 Government Institutions with SDG implementation responsibilities, to develop a mechanism to get the participation of Private sector and Civil society in the process of implementation of SDGs, to increase awareness about 2030 Agenda, to develop a monitoring and evaluation mechanism which enables to monitor and evaluate the overall progress of implementation of SDGs , to roll out the Agency planning template to collect information about all the other sectors and to do the integration of SDGs and targets into the National Development Framework, to give more concern about the 44 targets which were mainly based on environment and partnership but not aligned with PIP when preparing policies on National Development, to issue circulars to public institutions in a clarity way so that they can request financial resources to achieve targets, to give the priority on the non- aligned targets when allocating the resources, to issue guidelines, providing trainings and do the follow-up action thereon to prepare the 131 indicators that should be prepared by other Government Institutions, to expedite the process of compilation of data for 29 indicators that should be prepared by the DCS, and to increase the coordination of all the Government Institutions for successful implementation of SDGs in Sri Lanka.

Chapter 1 – Introduction

1.1 Audit topic

Preparedness for implementation of Sustainable Development Goals in Sri Lanka.

1.2 Why the audit was conducted?

As a member state of United Nations, Sri Lanka is also bound to adhere to the declaration on the SDGs; "Transforming Our World," The 2030 Agenda for Sustainable Development and emphasise the requirement of independent review on the implementation of SDG programme.

1.3 Audit objectives and audit questions

Audit Objectives

There are three main objectives that can be identified in the aspect of Audit Perform as an independent review of this programme.

- i. To what extent had the Government adapted to the 2030 Agenda to its national context?
- ii. Has the Government identified and secured resources and capacities (means of implementation) needed to implement 2030 Agenda?
- iii. Has the Government established a mechanism to monitor, follow - up, review and report on the progress towards the implementation of the 2030 Agenda?

Audit Questions

The efforts made to integrate the 2030 Agenda into the country's legislation, policy, plans, budget and programmes including the country's existing Sustainable Development strategy can be identified as the following question form.

- i. Has the Government informed and involved citizens and stakeholders in the Processes and institutional arrangement to integrate the 2030 Agenda?
- ii. What are the responsibilities assigned among various levels of the Government?

- iii. Has the Government designed policies and institutional mechanisms to supports integration of the three dimensions?
- iv. Has the responsible entity identified the resources on its priorities in the 2030 Agenda?
- v. Has the responsible entity identified cooperation and partnership opportunities?
- vi. To what extent has the responsible entity secured their sources?
- vii. Has the responsible entity identified risks and risk mitigating strategies in securing resources and capacities?
- viii. Has the Government assigned responsibilities to monitor, follow up, review and report on the progress towards the implementation?
- ix. Has the Government identified performance indicators and baselines and set milestones to monitor and report on the implementation?
- x. Has the Government monitor the progresses to ensure the quality, availability and required level of disaggregation of the data needed?
- xi. Have monitoring, follow-up, review and report processes been designed through a participatory process and whether these processes enable stakeholder engagement?

1.4 Audit Scope and Approach

Audit Scope

Assessed the preparedness for implementation of SDGs of selected Government Institutions involved in the implementation of SDGs for the period from January 2016 to 17th August 2018, by collecting information through replies made on a set questionnaires prepared by the National Audit Office, interviews with relevant officials of Government Institutions, stakeholders, focus group review and deskreview of relevant files, documents.

Audit Approach

The approach used here is a combination of system, result and problem oriented approach.

1.5 Audit Criteria

Audit Criteria developed for the assessment of the achievement of each audit objective are as follows.

- i. The Government is required to identify the responsible entities coordinating the implementation of SDGs.
- ii. The Government is required to carry out an analysis on the existing institutional arrangement in order to adopt 2030 Agenda.
- iii. The Government is required to identify the main objectives and the affairs of the responsible entities.
- iv. The Government is required to identify improvement areas in the National Development Plan and supporting sector plans.
- v. Public awareness is required on SDGs.
- vi. Engagement of different stakeholders in every stage of implementation process of 2030 Agenda.
- vii. Clear identification of roles and responsibilities of Government entities relevant to the implementation process.
- viii. Review of the existing mechanism of coordination among various levels and identified areas for change.
- ix. There are institutional arrangements to delegate the responsibility for implementation of SDGs among each administrative level.
- x. The policies of the Government for integration of 3 dimensions of Sustainable Development.
- xi. Identification of the resources and capacities needed for SDGs implementation.
- xii. Availability of inclusive process in identification of the resources and capacities.
- xiii. Responsible entities are required to develop cooperation among them for getting required resources and capacities.
- xiv. The responsible entity has identified the risk and risk mitigation in securing resources and capacities.
- xv. Section 26 (1) of Sri Lanka Sustainable Development Act, No. 19 of 2017. (The Minister may make regulations for the purpose of carrying out or giving effect to the principles and provisions of this Act)
- xvi. Requirement of nationally relevant indicators and baseline data to monitor and report on the implementation of SDGs.

- xvii. Availability of set of milestones to monitor and report on the implementation of SDGs.
- xviii. System to collect required level of disaggregated data.
- xix. System to report implementation of SDGs.

Sources of Audit Criteria

The sources of criteria were as follows.

- Interim Reference Guide to UN Country Teams-Mainstreaming the 2030 Agenda for Sustainable Development- Reference Guide
- Addis Ababa Action agenda of the Third International Conference; on Financing For Development (Addis Ababa Action agenda) A/RES/69/313 UN General Assembly 2015 ;
- Report of the Inter-Agency and Expert Group on Sustainable Development Goal Indicators ; and
- Rapid Integrated Assessment in Sri Lanka

1.6 Methodology

Different kinds of data and the methodologies which can be applied to analyse them are as follows.

Data

Methodology

Documentary data - Desk review of relevant documents, file examination

Testimonial data - Interviews with Government officials, Stakeholders, Focus groups

Analytical data - Built by auditor using different types of data coming from the Special Expenditure Units, Ministries, Departments, Corporations, Government Owned Companies, District Secretariats, Provincial Councils, Municipals Councils, Urban Councils, Pradeshiya Sabah

Standards used for the audit

In order to give high quality output of the audit, we used the standards of International Organization of Supreme Audit Institution ISSAI 300, ISSAI 3000, ISSAI 3100, ISSAI 3200

Chapter 2 – Overview

2.1 Preparedness for implementation of Sustainable Development Goals and stakeholders involved

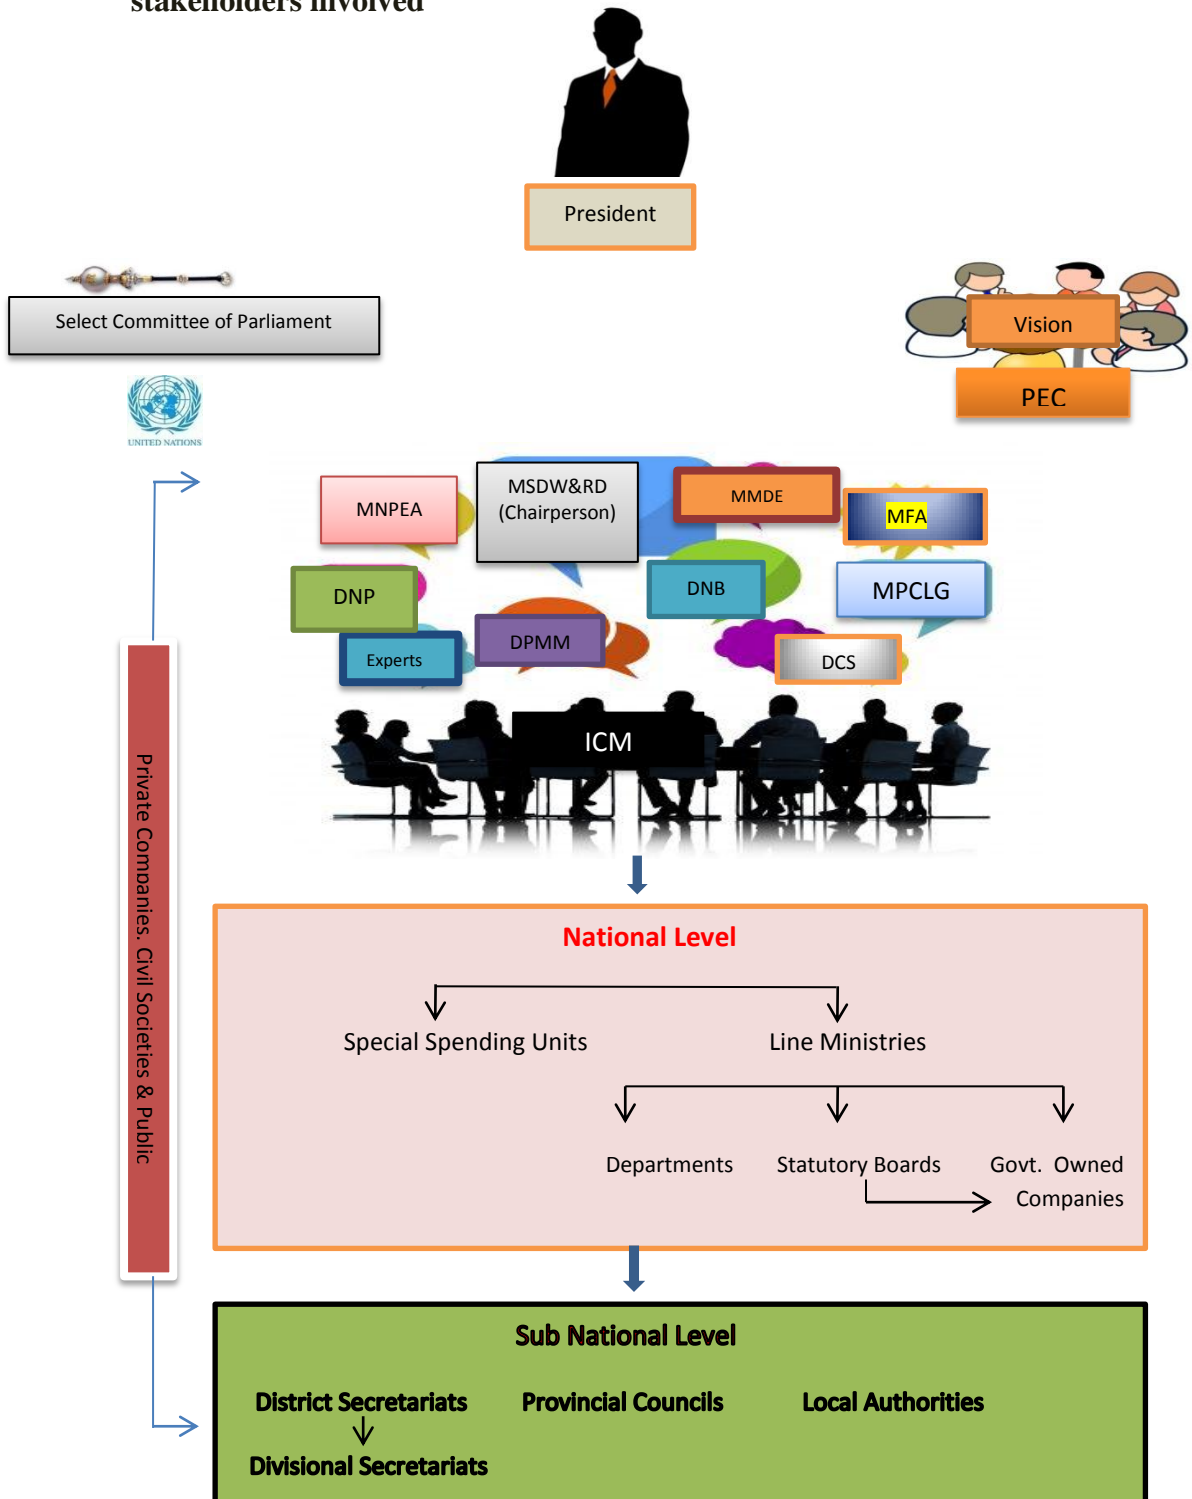

Figure 01: Involvement of stakeholders

2.2 Background information on country's preparation for SDG implementation.

As a member country of United Nations, Sri Lanka has committed to implement 2030 Agenda by taking several initiatives such as formulation of Parliament Select Committee on SDGs, establishment of Ministry of Sustainable Development and Wildlife in 2015 and enactment of the Sustainable Development Act, No.19 of 2017. The Parliament Select Committee has been established with the objectives of facilitating the implementation of SDGs for the purpose of Coordinating the activities of the Parliament with the respective Ministries and providing expert advice, the Ministry of Sustainable Development, Wildlife and Regional Development acts as the focal point for coordinating , facilitating and reporting the SDG implementation of Sri Lanka and the Sustainable Development Act provides for the development and implementation of national policy and strategy on Sustainable Development in Sri Lanka in addition for the establishment of a Sustainable Development Council and for matters connected there with or incidental thereto.

According to the Section 3 of part I of the Sustainable Development Act, the Sustainable Development Council had been established and the members had been appointed in February 2018. Until the establishment of the Sustainable Development Council, an Interim Coordination Mechanism (ICM) for implementing the SDGs in Sri Lanka has formed by the Secretary of MSDW&RD. A Consultative Committee comprising public, academia, and experts worked together on matters connected with SDGs.

According to the Section 10 of the part I of the Sustainable Development act, the powers functions and duties of the council shall be

- (a) to facilitate the achievement of National, Regional and International commitments relating to sustainable development;
- (b) to formulate National Policy and Strategy on Sustainable Development in consultation and with the concurrence of all relevant parties and nine Provincial Councils and place before the Cabinet of Ministries for approval;

- (c) to review and update the National Policy and Strategy on Sustainable Development periodically as and when the Cabinet of Ministers so decides;
- (d) to issue guidelines relating to sustainable development to the ministries, provincial councils and project approving agencies in respect of new development projects;
- (e) to facilitate and monitor the mechanisms and progress review processes of the implementation of such National Policy and Strategy on Sustainable Development;
- (f) to appoint expert committees to study any specific matter;
- (g) to identify sustainable development standards and ecological footprint indicators;
- (h) to promote sustainable development including research and development, innovation, education awareness and eradication of poverty;
- (i) to identify, introduce and follow up the mechanisms, audit mechanisms and all other matters relating to sustainable development;
- (j) to acquire, hold, take or give on lease or hire, any immovable property;
- (k) to open, maintain and close current and savings accounts in any State bank;
- (l) to accept grants, gifts or donations from persons or bodies of persons, in or out side Sri Lanka;

Provided that, the Council shall obtain the prior written approval of the Department of External Resources of the Ministry of the Minister assigned the subject of National Policies and Economic Affairs, in respect of all foreign grants, gifts or donations made to the Council. Such written approval shall not impose any obligation or condition;

- (m) to co-ordinate with the project approving agencies to achieve the seventeen sustainable development goals;
- (n) to enter into, or perform, all such contracts as may be necessary for the exercise of its powers or the discharge of its functions; and
- (o) to borrow such sums of money as may be necessary for discharging of its functions.

The MSDW&RD has obtained approval to Support the SDG mainstreaming process of all ministries in addition to training two Officers (One from managerial position and other from technical position) to undertake the planning process

In addition to that every Ministry has appointed a focal point on SDGs according to the letter of Secretary of Sustainable Development and Wildlife , No . MSDW 08/28 on 16 December 2016.

A summary of the information about the institutes involved in SDG implementation is given in the annexe 1.

Chapter 3 – Integration of the 2030 Agenda into the National Context

3.1 Summary

The 2030 Agenda recognizes that the economic, social and environmental dimensions of sustainable development are interconnected and commits to an integrated and balanced approach to achieve sustainable development. In Sri Lanka, the vision 2025 or the long term development plan as well as the Public Investment Programme has integrated the Economic and Social dimension of Sustainable Development to a certain extent than that of the environmental dimension.

3.2 Theme 1: Integration of the SDGs into national planning strategies, policies and processes.

Following observations are made in this regard.

3.2.1 The vision for the implementation of SDG Programme applicable at present is vision 2025. Accordingly, Sri Lanka would become a rich country by 2025, transforming Sri Lanka in to the hub of Indian Ocean, with a knowledge based highly competitive social – market economy. According to the vision, it is expected to raise per capita income up to USD 5000 per year, creating one million new jobs, increase foreign Direct Investment up to USD 5 billion per year and double the exports up to USD 20 billion per year. While examining this vision document, the Audit observed that more emphasis have been given only on the economic and social dimensions whereas low emphasis on the environmental dimension.

3.2.2 The Select Committee of Parliament is mandated to make recommendations formulating national policies and legislating laws in consultation with relevant line Ministries; allocation of adequate domestic resources and finding international funding resources ; Co-ordinating among Government implementing agencies ; networking measures the progress of the implementation of SDGs at National, Provincial and Local levels ; encouraging public-private partnership ; obtaining support of UN agencies and civil society organizations ; sharing

expertise and experience among countries at regional and international levels ; developing a separate database and reviewing progress periodically ; and consideration of all matters are the functions connected with or incidental to the above issues.

Therefore, with the view of implementation of SDGs the Select Committee of Parliament has formed the following activities as a mechanism which helps for the implementation of SDGs in Sri Lanka.

- Held a knowledge exchange session for all 225 Members of Parliament and Parliament Secretariat
- Division of 17 SDGs into four thematic clusters to localize SDG targets as economic sustainability.
- Presented the Interim Report of the Committee to the Parliament.
- Send letters to the line Ministries requesting to compile baseline data for indicators.
- Done a research on “How 2018 budget reflect against SDGs”

However, the audit observed that each cluster on SDGs has met only once in the year 2017 and only once up to August 2018 which limits the exercise their efforts on implementing SDGs to enhance the life of their citizens.

3.2.3 In order to identify the level of alignment of national development plans with Sustainable Development Targets, a survey called Rapid Integrated Assessment has been carried out by the UNDP taking in to Consideration the Public Investment Programme. The Results of the RIA are as follows

<u>Description</u>	<u>Result</u>
• Targets which are not applicable to the country context	16
• Target cannot be mapped with the 2017-2020 public investment plan	44
• Fully aligned targets	64
• Partially aligned targets	<u>45</u>

According to the above results, the audit observed that there are 16 targets which are not relevant to country's context or are to be solved at the regional or global level and also 44 targets could not be mapped with PIP due to absence of equivalent targets in PIP whereas, 64 targets were fully aligned with PIP and 45 targets were partially aligned due to the non-completion of either in scope, ambition or non-availability of indicators to measure the achievements.

3.2.4 The MSDW&RD is the focal point for overall coordination and facilitates to SDGs integration process. For this purpose, a hand book has been prepared including 425 selected Government Institutions by mapping inter and intra linkage between 169 targets. However, the hand book is still in the draft level and has not been reviewed by experts up to 17th August 2018. Therefore, it has not been sent to relevant Government Institutions to identify their inter-linkages. In addition to that, when mapping the relevant institutions, it has limited only to 425 institutions although there are more than that amount coming under the Government sector. Therefore the audit observed that it has not considered about the importance of private sector when doing their mapping exercise on SDGs.

3.2.5 Ministry of National Policies and Economic Affairs has issued the circular No.NP/SP/SDG/17 of 14 August 2017 requesting all the Secretaries to Ministries, Chief Secretaries of Provincial Councils, Head of Departments, Chairmen of Corporations and Statutory Boards requesting to make necessary arrangement to identify relevant SDG indicators, targets and implementation gaps and compile data for the SDGs in relation to the scope of their institutions and submit to the Department of National Planning which will enable them to integrate SDGs and targets into the national development framework. However, the relevant institutions had not responded to that circular in a satisfactory level due to lack of awareness of the agenda and which lead them to make the Agency Planning Template. That template has been prepared by the DNP for identifying baseline information policy gaps and existing programmes related to SDGs that has been already implemented by the institutions come under the Agriculture Sector. Therefore, it was

expected to analyse the collected data and find out the present situation of planning process of those institutions, to prepare the strategic plan based on that information and evaluate all the other policies (policy coherence), and to evolve this template for the other sectors. Although that is a successful effort taken by the DNP to integrate SDGs and targets into national development framework, the audit observed that there are some delays in that process due to delaying of submission of completed templates by the relevant institutions.

3.3 Theme 2: Alignment of budgets, policies and programmes to the SDGs

The audit observed following matters with respect to the alignment of budgets, policies and programmes in the process of implementation of SDGs in the country's context.

The National Budget had not been aligned with SDGs for the year 2017, but for the year 2018, the Budget had focused on moving forward achieving the SDGs by based on performance of the activities. Accordingly, the emphasis was given on identifying measurable key performance indicators of major projects. After deducting debt repayments, the DNB has allocated Rs. 440,787 million or 18 percent out of the total national budget of Rs. 2,997,845 million on major projects which identified relevant targets of SDGs in the year 2018.

The DNB has sent 2 circulars (Budget Circular No. 2/2017 and Budget Circular No.BD/CBP/4/1/2-2018) to all Secretaries to Ministries, Chief Secretaries of Provincial Councils, Head of Departments, Chairman of Corporations and Statutory Boards with a view of guiding for the preparation to annual programmes relating to SDGs. However due to lack of clarity of the circulars, most of the relevant Government Institutions were not able to provide productive proposals which resulted in the lack of resources for said institutions to implement of SDGs. This can be visualised through given table which was created by information obtained from the respective Government Institutions for the questionnaire raised by the National Audit Office. (see annex 2 and 3 for more details).

	Special Spending Units	Ministries	Departments	Corporations	Govt. Owned Companies	District Secretariat	Provincial Councils	Municipal Councils	Urban Councils	Pradeshiya sabha	Total
No. of Questionnaires sent	21	49	92	207	106	25	9	24	41	276	850
No. of Respondents	8	32	64	114	42	13	9	11	25	202	520
No. of Institutions implemented National Budget Circular 2/2017 *	1	27	23	61	8	9	6	8	16	90	249

Percentage	14	57	35	35	8	12	56	25	29	25	28

Table 01: Institutions implemented National Budget Circulars

(Total number of questionnaire sent had been considered for calculation of percentages)

* Guidelines for the preparation of 2018 Budget Estimate (Key Performance indicators, performance based Budget Approach)

** Guidelines for the preparation of 2018 Budget Estimates (mentioned SDGs) Gender Response Budgeting and Empower differently able people)

3.4 Theme 3: Policy integration and coordination

The Section 11 of National Sustainable Development Act, No.19 of 2017 has stated that “every Ministry, Department, Provincial Council, Provincial Ministry and Department and Local Authority shall prepare the Sustainable Development Strategy relevant to the scope of them in accordance with National policy and strategy on Sustainable Development.” However, due to the absence of national policy and a strategy on Sustainable Development, the relevant institutions carried out their activities on SDGs through their current action plans.

According to the structure of administration of the Government Institutions, the Ministries are at the highest level of implementation of policies. The integration of policies on the implementation of the SDGs at national, provincial and local levels is performing through their Action Plans. The details of the institutions and the level of integration of policies are as follows. (See annexe 4 and 5 or more details)

	Special Spending Units	Ministries	Departments	Corporations	Govt. Owned Companies	District Secretariat	Provincial Councils	Municipal Councils	Urban Councils	Pradeshya sabha	Total
No. of Questionnaires sent	21	49	92	207	106	25	9	24	41	276	850
No. of Respondents	8	32	64	114	42	13	9	11	25	202	520
No. of Institutions identified SDGs & targets	3	31	35	81	17	6	7	9	16	105	310
Percentage	14	63	38	39	16	24	78	38	39	38	36
No of Institutions included SDGs & targets in the Action Plan	3	29	30	72	15	7	5	6	16	95	278
Percentage	14	59	33	35	14	28	56	25	39	34	33

Table 02 : Institutions which identified the SDGs, targets and inclusion of them in to Action Plan
(Total number of questionnaire sent had been considered for calculation of percentages)

The results found from the information obtained from various institutions revealed that the integration of policies is not at a satisfactory level for all the Government Institutions.

3.5 Theme 4: Creating ownership and engaging stakeholders in integrating the SDGs into the national context.

The success of achieving SDGs is depended on the amount that how they are related to each and every stakeholder and how they are applied by them as their own. To make them into a real, it is essential to make the sense of ownership about agenda among all the stakeholders. Sri Lanka has taken several initiatives to creating ownership of 2030 Agenda and engaging stakeholders as follows.

3.5.1 The Select Committee of Parliament has been established on SDGs to facilitate the implementation of SDGs for the purpose of coordinating the activities of the Parliament with respective ministries, and providing expert advice.

3.5.2 The Government has established the Ministry of Sustainable Development and Wildlife in year 2015 as the line Ministry of SDG implementation of the Country.

The MSDW&RD which is the ministry responsible for overall coordination has taken several actions to get the involvement of other line ministries at national level and sub national level through awareness, training and mainstreaming programmes. In this exercise they have conducted 21 programmes on awareness to make the sense of ownership of agenda in the years 2016, 2017 and upto August 2018. Although this is a good effort, the audit observed that other than only two instances, they have not considered, about the private sector in the process of awareness which makes an obstacle to the inclusive and participatory process.

3.5.3 The Act, No.19 of 2017 of Sustainable Development has been enacted by the Parliament to provide for the development and implementation of a national policy and strategy on Sustainable Development in Sri Lanka, for the establishment of a Sustainable Development Council and for matters connected therewith or incidental thereto.

3.5.4 Voluntary National Review

In 2017, the Government of Sri Lanka has expressed its willingness to present its first Voluntary National Review in July 2018 at the High Level Political Forum under the theme of “Transformation towards sustainable and resilient societies” and participated to the High Level Political Forum held in New York from 16th – 18th of July 2018.

3.5.5 Vision 2030

The President of the Sri Lanka has appointed a Presidential Expert Committee on Sustainable Development and gave the mandate to prepare the vision document 2030 which describes the vision and the practical pathway to reach a Sustainable future by 2030.

3.5.6 The details of the information obtained from various levels of Government Institutions regarding the level of awareness of SDGs by the Heads of the Government Institutions and the dissemination of the message of SDGs to the other levels are given below.

	Special Spending Units	Ministries	Departments	Corporations	Govt. Owned Companies	District Secretariat	Provincial Councils	Municipal Councils	Urban Councils	Pradeshya sabha	Total
No. of Questionnaires sent	21	49	92	207	106	25	9	24	41	276	850
No. of Respondents	8	32	64	114	42	13	9	11	25	202	520
No of institutions aware of SDGs	5	32	54	92	19	12	8	8	17	103	350
Percentage	24	65	59	44	18	48	89	33	41	37	41
Issued Internal circulars for implementation of SDGs	3	20	22	48	9	4	6	5	5	37	159
Percentage	14	41	24	23	8	16	67	21	12	13	19

Table 03: Institutions which are aware of the SDGs

(Total number of questionnaire sent had been considered for calculation of percentages)

The above analysis revealed that, the level of awareness of SDGs at the Ministerial level and Provincial council level are satisfactory while the level of awareness of Government owned companies and other institutions are very low in position which implies that the increase of awareness programmes in those institutions are required. (see annex 6 and 7 for more details)

3.5.7 The 2030 Agenda highlights the importance of bringing different actors together in implementing the sustainable development. Engagement of different types of stakeholders in the different stages is essential for successful implementation. The information gathered from various Government Institutions revealed that, most of them have not identified the private sector as a stakeholder and they have not taken proper actions for buildup methodologies to engage their stakeholders for implementation of SDGs. The details are as follows. (see annex 8, 8 i and 9 for more details)

	Special Spending Units	Ministries	Departments	Corporations	Govt. Owned Companies	District Secretariat	Provincial Councils	Municipal Councils	Urban Councils	Pradeshiya sabha	Total
No. of Questionnaires sent	21	49	92	207	106	25	9	24	41	276	850
No. of Respondents	8	32	64	114	42	13	9	11	25	202	520
No. of Institutions identified stakeholders	3	29	43	82	18	8	7	9	11	104	311
Percentage	14	59	47	40	17	32	78	38	27	38	37
No. of Institutions identified private sector as a stakeholder	1	6	17	37	8	2	4	5	5	36	121
Percentage	5	12	18	18	8	8	44	21	12	13	14
No. of Institutions conducted awareness programs for stakeholders	3	22	21	55	7	6	7	6	5	55	188
Percentage	14	45	23	27	7	24	78	25	12	20	22

Table 04: Institutions which identified stakeholders and made awareness programme.
(Total number of questionnaire sent had been considered for calculation of percentages)

3.6 Theme 5: Inclusiveness and leaving no one behind

The inclusiveness and leaving no one behind has been ensured by the following sources.

- 3.6.1** The Constitution of Democratic Socialist Republic of Sri Lanka has guaranteed the fundamental rights of freedom of thought, conscience and religion, freedom from torture, right to equality, freedom from arbitrary arrest, detention and punishment, freedom of speech, assembly, occupation etc. of every Sri Lankan.
- 3.6.2** Enactment of Right to Information Act, No.12 of 2016 which provides for the right to access to information to every citizen.

3.6.3 Sri Lanka provides free health care services for all citizens which supports to achieve the SDGs and also covers the concept of no one leaving behind with respect of health aspects. Therefore, Sri Lanka provides free primary and secondary and university education to all its citizens and also all the university and technical education to students, which will cover the concept of no one leaving behind with respect to the education aspect.

3.6.4 There are 9 social protection programmes which come under Public Investment Programme to cover the groups of poor, elderly, and disabled and for people suffering from diseases, rehabilitating programmes, and nutrition programmes etc.

Comments of the Institutions

Department of National Planning

In order to understand the alignment of national policies with the SDGs, the Department of National Planning has undertaken an analysis using the PIP 2017-2020 as the base document. In this analysis, the key areas of public investment were mapped against the SDGs to obtain a broad overview on the SDG profile of the country. The analysis revealed that all the 17 SDGs have been covered by at least one thematic area in the PIP document implying a good coverage of the SDGs in PIP 2017 – 2020.

Further, the above SDG mapping was extended to undertake a further disaggregated analysis at the target level to identify the coverage of different SDG targets by the PIP and to identify the levels of alignment of PIP priority areas with the SDG targets. It was observed that there are some targets, which had not been aligned to PIP due to the fact that these targets are not relevant to the country context and also the period considered in the PIP (2017-2020). However, some of the relevant targets will be incorporated as appropriately in the next phase of PIP.

Chapter 4 - Resources and capacities for implementing the 2030 Agenda

4.1 Summary

The identification of financial resources and capacities and the ways of securing resources for implementation of 2030 Agenda is not in a satisfactory level, as PIP and the National Budget has not been aligned with sustainable development goals sufficiently. Therefore, identification of resources, capacities and mobilization of partnerships at institutional level are also not in a satisfactory level.

4.2 Theme 1: Identification of needs and required resources, and capacities for implementing the SDGs.

Financing is a major requirement which will affect directly to the successful implementation of SDGs. This will enable acquiring of physical and human resources and deploy them in effective way. The audit observed following situation regarding the identification of needs, and required resources on capacities for implementation of SDGs.

4.2.1 The current strategy of implementations of SDGs in Sri Lanka is mainstreaming. Thereby, use of annual Budget to finance the SDG targets as the short term strategy for allocation of funds makes the process easy by giving necessary funds for SDGs implementation. The tax and non-tax revenue, domestic and foreign borrowings are the sources of financing.

The audit observed that DNB has identified and allocated Rs.440,787 million or 18 percent out of the total budget of Rs.2,997,845 million (after deducting debt repayment) over development projects and programmes with targets of relevant SDGs in the year 2018.(see annexe 10 for more details)

4.2.2 As the medium term strategy for identification of required resources and capacities for implementation of SDGs, the PIP has identified resources, required for the period from year 2017-2020 to some extent. This could be visualized through the already aligned 64 targets of SDGs with PIP. However, the audit observed that the resource for 44 targets which had not been aligned with PIP has not been covered by any source of financing.

4.2.3 Identification of the required resources and capacities for implementing the SDGs at the institutional level is also an important factor in implementation of 2030 Agenda. The following table depicts the details of identification of requirement of resources and capacities.

	Special Spending Units	Ministries	Departments	Corporations	Govt. Owned Companies	District Secretariat	Provincial Councils	Municipal Councils	Urban Councils	Pradeshya sabha	Total
No. of Questionnaires sent	21	49	92	207	106	25	9	24	41	276	850
No. of Respondents	8	32	64	114	42	13	9	11	25	202	520
No. of Institutions recognized financial requirements for implementation of SDGs	3	23	26	55	11	3	5	6	14	82	228
Percentage	14	47	28	27	10	12	56	25	34	30	27
No. of Institutions have a methodology for the management of physical resources presently available	3	24	30	60	13	6	5	8	8	84	241
Percentage	14	49	33	29	12	24	56	33	20	30	28
No. of Institutions have a methodology for the involvement of the staff	2	12	31	65	17	8	5	7	15	91	253
Percentage	10	24	34	31	16	32	56	29	37	33	30
No. of Institutions have a methodology for the training of the staff	3	16	24	56	16	7	6	8	5	58	199
Percentage	14	33	26	27	15	28	67	33	12	21	23

Table 05: Institutions which recognized financial requirements, have a methodology for the management of physical resources, involvement of the staff and Training of the staff (Total number of questionnaire sent had been considered for calculation of percentages)

According to the above table, most of the Government Institutions have not identified the financial requirement for implementation of SDGs as well as the methodology for management of physical and human resources and to develop capacities of human resources. (See annex 11,12,13 and 14 for more details)

4.3 Theme 2: Mobilizing Partnerships

Well-established, multi-stakeholder partnerships provide opportunities of corporation and achievement of SDGs.

4.3.1 When analyzing information gathered through the questionnaire about how the partnership opportunities had been mobilized for implementing the 2030 agenda, the audit observed that few of Government Institutions had identified partnership opportunities with related Government Institutions as well as a methodology for buildup partnership opportunities and exchanging of resoueces with related Government Institutions. The details are as follows.(see annex 15,16 and 17 for more details)

	Special Spending Units	Ministries	Departments	Corporations	Govt. Owned Companies	District Secretariat	Provincial Councils	Municipal Councils	Urban Councils	Pradeshiya sabha	Total
No. of Questionnaires sent	21	49	92	207	106	25	9	24	41	276	850
No. of Respondents	8	32	64	114	42	13	9	11	25	202	520
No. of institutions identified partnership opportunities	3	26	28	66	12	5	6	9	11	87	253
Percentage	14	53	30	32	11	20	67	38	27	32	30
No. of institutions Identified methodology to build partnerships	3	22	24	60	10	5	5	9	9	82	229
Percentage	14	45	26	29	9	20	56	38	22	30	27
No. of institutions have opportunity to exchange resources with related govt. institutions	3	25	23	61	9	6	6	9	12	81	235
Percentage	14	51	25	29	8	24	67	38	29	29	28

Table 06 : Mobilizing Partnerships

(Total number of questionnaires sent had been considered for calculation of percentages)

4.3.2 In following instances, the UN agencies have assisted Sri Lankan Government through partnerships to enhance capacity development.

- UNDP has given its support for RIA.
- Voluntary National Review process (UNRC and UNESCAP)
- The national multi stakeholder consultative workshop for the VNR held in July 2018. (UNDP)
- Preparing five year District Development Plan at Monaragala District. (UNDP)
- To prepare indicator framework to collect baseline data from Government Institutions by DCS with co-ordination of Presidents Secretariat and UNPFA

4.4 Theme 3 : Managing risk at securing resources

The identification of requirement of resources for implementation of SDGs is done by the respective implementing agencies and the position that the country should be reached by 2030 and the requirement of resources for that purpose should be identified by the planning agencies. In that process, a complete analysis should be done and ;

- The contribution of all the stakeholders including Government sector ,private sector, civil societies etc. should be undertaken and,
- A clear understanding should be obtained about the level of alignment of SDGs within the Public Investment Programme and the resources requirement should be identified accordingly.

According to the responses received for the questionnaires the audit sent for the Government Institutions, most of them have not identified the risk of securing resources as well as the methods of mitigating risk relating to securing resources to achieve SDGs. The details are as follows. (See annex 18 and 19 for more details)

	Special Spending Unit	Ministry	Departments	Corporations	Govt. Owned Companies	District Secretariat	Provincial Councils	Municipal Councils	Urban Councils	Pradeshiya sabha	Total
No. of Questionnaires sent	21	49	92	207	106	25	9	24	41	276	850
No. of Respondents	8	32	64	114	42	13	9	11	25	202	520
No. of institutions identified risk of securing resources	3	22	25	43	11	4	6	5	11	82	212
Percentage	14	45	27	21	10	16	67	21	27	30	25
No. of institutions identified methods of mitigating risk relating to securing resources	3	19	25	45	10	4	5	6	8	74	199
Percentage	14	39	27	22	9	16	56	25	20	27	23

Table 07 : Institutions identified risk of securing resources and methods of mitigating risk relating to securing resources.

(Total number of questionnaire sent had been considered for calculation of percentages)

Chapter 5 – Monitoring, follow-up, review and reporting on progress towards the implementation of the 2030 Agenda.

5.1 Summary

MSDW&RD has the primary responsibility of designing and carrying out the National Monitoring, Follow-up, Review and Reporting mechanism for SDGs in Sri Lanka. Although, that responsibility is vested with the MSDW&RD, it was unable to complete the tasks needed to establish a monitoring and evaluation mechanism within the expected time period. Therefore, the DCS has compiled data for 46 indicators and it has to compile data in keeping with another 29 indicators. There are 131 indicators for the data to be compiled by other Government Institutions. Further, the audit observed that due to lack of awareness of agenda most of the Government Institutions had not paid their attention to prepare indicators and identify milestones in implementation of SDGs.

5.2 Theme 1: Responsibilities, mechanisms and process for monitoring, follow up, review and reporting

The 2030 Agenda specifies the need of a systematic Monitoring, Follow-up and Review of progress in order to contribute to effective implementation and track progress.

According to the Section 26(1) of the Sri Lanka SDG Act, No.19 of 2017, the legal provision has been made to establish a mechanism to monitor, follow up, review and report on the progress towards the implementation of 2030 Agenda.

5.2.1 MSDW&RD has the primary responsibility of designing and carrying out the national monitoring, reviewing, reporting and follow-up mechanism for SDGs in Sri Lanka. Although following activities had been identified by the MSDW & RD to carry out to monitor, follow up and review functions, such activities had not been completed within the specified time period as mentioned in the National SDG Activity Plan 2017-2020.

- i. A National SDG Indicators and Baseline Data Framework.
- ii. A National Sustainable Development Compliance and Standard Framework.

iii. Formulation of National SDG Review, Monitoring and Reporting Framework.

iv. Establishment of a National Sustainable Development Portal.

5.2.2 In order to identify how the monitoring, follow-up, review and reporting process occur at the institutional level, the audit used the answers received for the questionnaire and identified the following situation.

	Special Spending Units	Ministries	Departments	Corporations	Govt.Owned Companies	District Secretariat	Provincial Councils	Municipal Councils	Urban Councils	Pradeshya sabha	Total
No of Questionnaires sent	21	49	92	207	106	25	9	24	41	276	850
No. of Respondents	8	32	64	114	42	13	9	11	25	202	520
No. of Institutions developed milestones for implementation of SDGs	3	21	24	55	15	2	3	4	7	59	193
Percentage	14	43	26	27	14	8	33	17	17	21	23
No. of institutions have officers for collection of data	3	18	19	54	11	4	5	5	8	58	185
Percentage	14	37	21	26	10	16	56	21	20	21	22
No. of officers having both IT knowledge & adequate physical facilities for collecting data	4	16	10	50	12	3	3	5	6	47	156
Percentage	19	33	11	24	11	12	33	21	15	17	18
No. of institutions have methodology for the verification of accuracy & security of data	3	11	14	46	9	3	3	3	8	59	159
Percentage	14	22	15	22	8	12	33	13	20	21	19

Table 08: Institutions which developed milestones have officers having IT Knowledge and relevant facilities for collecting data and have a methodology for the verification of accuracy and security of data.

(Total number of questionnaire sent had been considered for calculation of percentages)

The information in the above table depicts that identification of milestones to achieve SDGs, the number of officers available for collection of data and the physical resources available for collection of data and the number of institutions having a methodology for the verification of accuracy of data is not satisfactory for any of the above institutions. (see annex 20,21,22 and 23 for more details)

5.3 Theme 2 : Performance indicators and data.

The SDG indicators show where the goals are being met and where they are not focused for attention on the need for immediate action. A sound indicator framework will turn the SDGs and their targets are used as management tool to help countries to develop implementation strategies, allocate resources, measure the progress towards achieving Sustainable Development, and ensure the accountability of all stakeholders. The DCS has identified and compiled data for some SDG indicators as follows.

Classification -----	Number of Indicators -----
Data are already complied by the DCS	46
Data are to be complied by the DCS	29
Data are Available or to be complied by other institutions	131
Regional/ Global indicator	35
Not relevant to Sri Lanka	<u>03</u>
	<u>244</u>

Table 09 : Status of SDGs indicator

5.3.1 The details of indicators for which Data have already compiled by DCS are as follows.

Goal	Indicator
Goal 1	1.1.1, 1.2.1, 1.2.2, 1.3.1
Goal 2	2.1.2, 2.2.1, 2.2.2
Goal 3	3.1.1, 3.1.2, 3.2.1, 3.2.2, 3.4.1, 3.4.2, 3.6.1, 3.7.1, 3.7.2, 3.8.2, 3.c.1
Goal 4	4.2.2, 4.4.1, 4.a.1, 4.c.1
Goal 5	5.1.1, 5.2.1, 5.3.1, 5.5.2,
Goal 6	6.1.1
Goal 7	7.1.1
Goal 8	8.1.1, 8.2.1, 8.5.2, 8.6.1, 8.7.1
Goal 9	9.1.1, 9.2.1, 9.2.2, 9.3.1
Goal 10	10.1.1, 10.2.1, 10.4.1
Goal 11	11.1.1
Goal 16	16.1.1, 16.1.3, 16.2.2, 16.3.2, 16.4.2

According to the above analysis, the audit observed that SDG indicators for goals 12, 13, 14, 15 and 17 had not been compiled by DCS and indicators for the above goals are required to be prepared by relevant institutions for their scope, to measure the achievements.

5.3.2 The Secretary to the President has sent a format on 16th March 2018 requesting information from 51 ministries regarding the compilation of baseline data on SDG indicators. However, only 7 ministries had responded to that request up to 31 July 2018 and only 3 had mentioned about the availability of data for preparing indicators. The details of the institutions which mentioned about the availability of data are as follows.

- (i) Ministry of Health, Nutrition and Indigenous Medicine
- (ii) Ministry of Mahaweli Development and Environment
- (iii) Ministry of Skills Development and Vocational Training

5.3.3 (i) The DCS has published its report of Status of Sustainable Development Goals & Indicators, first version published in July 2017 and 2nd revision Published in December, 2017. Although a period of 1 year has lapsed from the publication of the above report, DCS is still in the process of planning to compile data for 29 remaining indicators to be compiled by them.

(ii) When analyzing the data compiled by DCS for SDG indicators the audit observed that the disaggregation level of data for some indicators is not in a satisfactorily level.

Ex:-

Indicator	Details of indicator	Disaggregation Level
Indicator 4.a.1	Proportion of schools with access to: (a) electricity, (b) the internet for pedagogical purposes, (c) computers for pedagogical	(b) Internet for pedagogical purposes. <i>(base line not available)</i>

	purposes; (d) adapted infrastructure and materials for students with disabilities; (e) basic drinking water; (f) single-sex basic sanitation facilities; and (g) basic hand washing facilities (as per the WASH indicator definitions)	(c) Computers for pedagogical purposes (d) Adapted infrastructure and Materials for students with disabilities. (g) Basic hand washing facilities	<i>.(base line not available)</i>
Indicator 8.5.2	Un-employment rate by sex, age, persons with disabilities	persons with disabilities	not available.
Indicator 4.C.1	Proportion of teachers in pre-primary, primary, lower secondary and upper secondary education who have received at least minimum organized teacher training	pre-primary teachers	not available.

5.3.4 For the 131 indicators to be prepared by other institutions, most of the indicators were not prepared due to lack of knowledge of preparation of indicators for their targets to measure their achievements of sustainable development.

5.3.5 The 2030 agenda explicitly recognizes the importance of quality and reliable disaggregated data to monitor progress and ensure that no one is left behind. In order to identify the availability of disaggregated data at institutional level, the audit used the information received from various Government institutions and the details are as follows. (see annexe 24 for more details)

	Special Spending Units	Ministries	Departments	Corporations	Govt. Owned Companies	District Secretariat	Provincial Councils	Municipal Councils	Urban Councils	Pradeshiya sabha	Total
No. of Questionnaires sent	21	49	92	207	106	25	9	24	41	276	850
No. of Respondents	8	32	64	114	42	13	9	11	25	202	520
No of Institutions have a methodology for disaggregating data	3	18	18	51	13	4	3	7	8	51	176
Percentage	14	37	20	25	12	16	33	29	20	18	21

Table 10 : Institutions having disaggregated data

(Total number of questionnaire sent had been considered for calculation of percentages)

The above analysis revealed that for some targets and indicators, the availability of disaggregated data is not satisfactory for every level of Government institution.

5.4 Theme 3: Communication to Stakeholders

Sustainable Development Council is expected to provide a clear institutional mechanism for coordinating the SDGs under its mandate. The MSDW&RD has established an Interim Coordination Mechanism (ICM) for implementing the SDGs in Sri Lanka. Although preparation of strategic plan and communication strategy to be completed by December 2017 according to the Interim Action Plan of Sustainable Development Division of MSDW&RD, the audit observed that it has failed to complete that task within the specified time period.

Chapter 6 – Other Observations

The audit could not assess the preparedness for implementation of sustainable development goals of Government Institutions as they have not responded to the questionnaires sent by the National Audit Office up to 5th October 2018. The details of those institutions are as follows. (see annex 25 for more details)

Name of the Institution	Amount
Special spending units	08
Ministries	14
Departments	26
District Secretaries	12
Corporations	82
Govt.Owned Companies	62
Municipal Council	12
Urban Council	15
Pradeshiya sabha	69

Total	300
	====

Chapter 7- Recommendations

7.1 Recommendations to Ministry of Sustainable Development, Wildlife and Regional Development

- 7.1.1** To expedite the process of formulation of National Policy and Strategy on Sustainable Development which enables every Special Spending Unit, Ministry, Department, Corporation, Government Owned Company, District Secretariate, Provincial Council, Local Authority and other Government Institutions to prepare the Sustainable Development Strategy relevant to their scopes.
- 7.1.2** To review and finalize the draft hand book which maps SDG implementation responsibilities of 425 Statutory institutions & expedite that process to cover all the government institutions.
- 7.1.3** To develop a mechanism to get the active participation of private sector and civil societies in the process of implementation of SDGs in Sri Lanka.
- 7.1.4** To increase the awareness about the 2030 Agenda to the Provincial and Local Authority levels to get the involvement of every citizen or no one is left behind.
- 7.1.5** To develop a mechanism which enables to Monitor, Follow up, Review and reporting the overall progress of implementation of SDGs in Sri Lanka.
- 7.1.6** To establish a task force to coordinate the implementing agencies.
- 7.1.7** To setup targets & indicators for each and every implementing agencies alonge with the 2030 Agenda.
- 7.1.8** To make sure that required budgetary provisions are made in the annual budget.
- 7.1.9** To do periodic review of the achievement of targets by the implementing agencies and identify the setbacks and take remedial actions.

7.2 Recommendation to Ministry of National Policies and Economic Affairs

To give more concern about the 44 targets which were mainly based on environment and partnership but not aligned with Public Investment Programe (PIP) when preparing policies on National Development.

7.3 Recommendation to Department of National Planning

To roll out the Agency planning template to collect information about all sectors and to do the integration of SDGs & targets into the National Development Framework.

7.4 Recommendations to Department of National Budget

- 7.4.1** Should take action to issue circulars to public institutions in a clarity way so that they can request financial resources to achieve targets
- 7.4.2** Should take action to give it priority on the non- aligned targets when allocating the resources for successful achievement of SDGs.

7.5 Recommendations to Department of Census and statistics

- 7.5.1** To issue guidelines, providing trainings and do the follow-up action thereon to prepare the 131 indicators that should be prepared by other Government institutions as most of the Government institutions are not fully conversant with the compilation of data and preparation of indicators for achieving SDGs.
- 7.5.2** To expedite the process of compilation of data for 29 indicators that should be prepared by the DCS.
- 7.5.3** To act as the Central Body of maintaining data for sustainable development in collaboration with MSDW&RD

Chapter 8- Conclusion

8.1 Sri Lanka had not taken sufficient steps to formulate the national policy and strategy on sustainable development, alignment of targets with the Public Investment Programme and incorporation of relevant targets into national, provincial and regional level development programmes and get the stake holder involment in implementation of SGDs in Sri Lanka. The identification of financial resources and capacities and the ways of securing resources for implementation of 2030 Agenda is not in a satisfactory level, as PIP and the National Budget has not been aligned with sustainable development goals sufficiently. Therefore, identification of resources, capacities and mobilization of partnerships at institutional level are also not in a satisfactorily level. There is no system to measure, monitor and report on progress of implementation of SDGs in Sri Lanka.

Annexe 1

Roles and Responsibilities of organizations in the implementation of SDGs in Sri Lanka

Area		Agency	Roles & Responsibilities
-----		-----	-----
Overall Coordination	Lead:	MSDW&RD	Overall coordination of the planning implementation, monitoring and reporting of the SDG Agenda.
National policy/ Strategy Development / Planning	Lead :	DNP	<ul style="list-style-type: none"> • Preparation of national plan/national policy framework in consultation with line ministries, departments, think tanks academia, civil society organizations etc. • Identifying policy gaps, relevant programmes, investment, and budgeting Target setting (for localized SDGs)
	Support:	i DPMM	Making evaluation findings/ progress reports available to support the planning function.
		ii DNB	<ul style="list-style-type: none"> • Providing necessary budgetary allocations according to the policy framework. • Ensuring that budgetary allocations take into account the SDGs.
		iii Other govt. bodies	Providing inputs for preparing the national policy
		iv Think tanks/ academia/ civil society organizations	Contributing to policy development through evidence-based research.
Institutional Policy Development/ Planning	Lead:	i Line Ministries and Provincial Councils	Preparing sectorial/ provincial plans

		ii	DNP	Facilitation for preparing sectorial plans/ institutional plans including Provincial Councils, regional plans, and district plans through: <ul style="list-style-type: none"> • Providing consultation when sectorial/ institutional plans are formulated; • Reviewing the finalized plans to identify policy gaps and make necessary amendments.
	Support:	i	DPMM	Making evaluation findings/ progress reports/ field level observations available to support the planning process.
		ii	Finance Commission	<ul style="list-style-type: none"> • Conducting need assessment for the provinces and making recommendations to the Department of National Budget. • Setting guidelines for the development plans of Provincial Councils based on budgetary allocations issued by the Department of National Budget.
Facilitation for implementation	Lead:		MSDW&RD	Facilitating the implementation of the national and sub-national policies (capacity building, technical assistance etc.)
	Support:	i	Department of Treasury Operations	Providing financing as appropriate
		ii	DPMM	Facilitation through monitoring & evaluation

		iii	All line Ministries and Departments	Contribution to SDG implementation
Implementation	Lead:	i	Line Ministries and Government Departments	Implementation of the national and institutional policy/ strategy on sustainable development
		ii	DPMM	Monitoring & reporting national level results from government interventions on an annual/ biannual basis.
Monitoring & Evaluation	Support:	i	Line Ministries and other implementation agencies	Monitoring projects, programmes, and activities on monthly/ quarterly basis.
		ii	DCS	<ul style="list-style-type: none"> • Preparing indicator framework in collaboration with other organisations • Maintaining the SDG data repository • Helping other organisations to build their capacities related to indicator development and data collection
		iii	Think tanks/ academia	<ul style="list-style-type: none"> • Independent evaluations related to certain sector/ programmes • Contribution to prepare SDG progress reports
Reporting	Lead:		MSDW&RD	International reporting
	Support:	i	DNP	The assistance of these organizations is expected in terms of data collection and analysis (further discussion required)
	ii	DCS
